Date : April 11, 2006
Patent No. : 6,970,538 Application No. : 10/173247
Inventor(s) : Binder
Issued : Nov. 29, 2005
For : NETWORKS FOR TELEPHONY AND DATA COMMUNICATION

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) listed in your certificate of correction, after review of the application, it is revealed that only 16 corrections are listed on the 1050 form, but more are listed in the cover letter request, leaving question to whether the alleged errors which were not listed – are being made of record, or were omitted from the 1050 form, but are still requesting correction, and if so, a clear and complete 1050-form will be necessary for adequate processing. Accordingly, only the error(s) listed on the 1050 form were addressed. Therefore, being no fault of the Patent and Trademark Office, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323.

In view of the foregoing, your request in this matter is hereby denied.

A certificate will issue for the remaining error(s) listed in your request.

For further consideration, if applicable, - submit a Request for Reconsideration Certificate of Correction, including a 1050-form, completely listing the alleged error(s), their exact location, as no additional fee is required for these alleged error(s).

Note: This is a general hint, which may decrease the processing time of your request.

Certificates of Corrections are issued to correct errors of minor nature, i.e. typographical, spelling or grammar errors, errors not considered "critical information", which are correctable under the provisions of 1.322a; or applicant's errors correctable under the provisions of 1.323. If you obtain data that clearly shows the attorney/applicant is not in error, simply include supportive documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supportive documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request - then, the appropriate fee of \$100.00 with your "Certificate of Correction" or "Reconsideration Certificate of Correction" - will be necessary. Without supportive documentation, depending upon the matter in your request, it is possible - that in addition, a petition with its appropriate fee of \$130.00 may be necessary, or the request may be denied. Please be advised that - "identification of the exact point of error, by reference to column and line number in the printed patent", provides needed clarity to process a request; if a certificate of correction (PTOL-1050 form) is not clear and concise, its processing could possibly be in error, delayed, or denied. Please see the MPEP for further instruction and understanding.
